“ We had some crazy adventures from our teen years to adulthood. I remember when our moms had to pull over the car because we were screaming so bad and we almost caused a car accident over a bee 😄 So many funny serious moments but good moments because we did it together. We would lose contact at times but we would always come back together no matter what . Then my son being born on your birthday you said we were always meant to be family. We started off as our moms being best friends and then later in years I married a Chambers and we finally became official family we never knew that until your Grandpa funeral which you asked me to go with you. To my sister by heart and cousin by marriage I love you and forever miss you always!!!
