“ *I remember Kathy back when she worked at Brook Lodge in Augusta along with a chef named Frank Strickland. I tell you what, that kitchen could get very interesting from time to time with those 2 working together. Being in security, I would pass through there from time to time to see Frank and Kathy would be talking about something, usually about West Virginia where some of her family was from. A lot of fun and she will be missed. Tim Stamm, Augusta, MI##imported-begin##Tim Stamm##imported-end##*
