“ we go through life digging and sowing and weaving sorrow into tommow- goal being sunlight beyond horizon, rising each day the same way afraid - never realizing the seeds in us planted by another, always too late to say thank you and that I love you, this spring day fifty four dreams spill into 2009 tears around the bridge of noses once held high with pride, bowed down in the memory of you. this strength gained by the grace of wisdom handed down so many times behind the eyes of card games and hidden shame, i remember you, this day, fifty four dreams stream into 2009 tears.##imported-begin##tammy lipsey##imported-end##
